

## **SSM 54272 2025 Aviator - Rear Window Lock-Out Feature Works Opposite Of Rear Door Child Locks**

Some 2025 Aviator vehicles may exhibit a condition where the rear windows are locked when the child lock is off, and the rear windows are unlocked when the child lock is on. This may be due to the software in the BCM. To correct this condition, download and run the "BCM - Body Control Module (BCM) Software Update" application using the latest version of the Ford Diagnosis and Repair System (FDRS) scan tool. For claiming, use causal part 15604 and labor operations 12651D and 12651D4.
