

WSK9 Workshop Campaign – Re-programming DME control unit

WSK9 Workshop Campaign - Re-programming DME control unit

ID Number	WSK9
Model(s)	Cayenne (9YA/9YB)
Model Year(s)	2024 - 2026
VIN List	Attached
Number of Affected VINs	6,591
Issue Description	<p>There is a possibility that the software of the DME control unit on the affected vehicles does not meet the required specifications.</p> <p>This can lead to a longer waiting time before the fuel cap opens and to the yellow warning message "Re-fueling readiness cannot be established" on the instrument cluster. As a result of the warning message, the fuel cap can only be opened via the emergency release.</p> <p>To prevent this from happening, the DME control unit in the affected vehicles must be re-programmed with an optimized data record.</p>
What Porsche Centers Should Do	<p>Please arrange for this measure to be carried out on the affected vehicles during the next workshop visit or before the vehicles are handed over to customers.</p> <p>(Solution available as of 09/24/2024)</p>
Part Status	Status 0 - No parts needed
TI	WSK9
Californian PCs Only	<p>The Department of Motor Vehicles (DMV) in California may require that the customer furnish proof of completion of this Workshop Campaign in the form of a copy of the dealer's repair order, including a signed "Proof of Correction" certificate, before the next renewal of the vehicle registration. You must supply this</p>

documentation to the customer only after the campaign has been completed. Please instruct the customer to retain the signed "Proof of Correction Certificate" within their vehicle records.

Required software

PIWIS Tester 4 test software version 43.600.000 (or higher)
