Subject	Grom125 #3 Emissions Recall - Campaign Update						

Dear Honda Dealer:

Honda launched an emissions recall on ALL 2020-2026 Grom 125 motorcycles on August 7, 2025. A fuel system permeation test revealed that the fuel system does not meet regulatory standards and is not in compliance.

At American Honda, we understand and recognize how disruptive quality issues can be to our valued dealers and customers. We are committed to supporting you by taking steps to help mitigate the impact, including a six-month prepaid flooring credit for all affected Grom 125 units in dealer inventory (new and unregistered).

Flooring credits will be issued to your November Balance Forward Account (BFA). For details, refer to the *GROM125/NPS50 Flooring Support* bulletin #25-0231 found on *iN* under ***Sales > Sales Bulletins***

Thank you for your patience and partnership as we work to resolve these issues and get these critical models back on your showroom floors.

Sincerely,

American Honda Motor Co., Inc.
Powersports Division
