

Service Campaign TEJ – Temporarily Suspended, Effective 10/10/25 (10:30AM PST)

Hyundai Motor America is currently investigating an ongoing concern with software GDS event #1306 for certain Hyundai Santa Fe (MX5A) vehicles. The software update is not appearing for some impacted vehicles. In the interim, **Technical Service Bulletin (TSB) 25-01-072H** will be removed from Hyundai Tech Info.

We will provide an update once the issue is resolved and the suspension is lifted.

If dealer has already performed the update successfully on an impacted vehicle prior to the suspension, the corresponding campaign claim can be submitted.

Hyundai appreciates your cooperation and support. Questions may be directed to the Warranty HELP line at 1-877-446-2922.
