[📄 25-01-076H - DN8 HEV ATCU Software Update \(Service Campaign TEBA\)_\(Posted 10.20.25\).pdf](#)

Hyundai Motor America (HMA) has launched the following Service Campaigns TEB & TEBA for the AC Not Shutting Off – ATCU Software Update!

A. Affected Vehicles:

1. Service Campaign TEB: Certain 2024-2026MY Sonata (DN8) vehicles produced from 10/18/2023 – 07/21/2025

2. Service Campaign TEBA: Certain 2024-2026MY Sonata Hybrid (DN8) vehicles produced from 12/12/2023 – 07/16/2025

VIN Identification: Use the 'Vehicle Information' screen in WebDCS under the 'Campaign Not Performed' section to determine campaign applicability.

B. Campaign Description:

Certain Sonata (DN8) and Sonata Hybrid (DN8 HEV) vehicles may experience battery drain due to the air conditioning controller not shutting down completely while the vehicle is parked and turned off. **TSBs 25-01-075H (for Sonata vehicles) & 25-01-076H (Sonata Hybrid vehicles)** provides instructions to perform a software update for the ATCU (Air Temperature Control Unit).

Over-the-Air (OTA): This update can also be conducted via OTA. The customer can complete on his/her own if he/she has an active subscription to Hyundai Bluelink. A visit to the dealership is not required. **Deployment of the OTA to Bluelink customers is planned for end of October 2025.**

C. Campaign Document(s):

1. Technical Service Bulletins (TSBs) 25-01-075H & 25-01-076H-

- Available on Hyundaidealer.com > Service > HMA Tech Info > Campaign

D. Action Required:

1. Confirm VIN eligibility for campaign via WebDCS.
2. **Follow the appropriate TSB** for the service procedure to update the software.
3. **Submit campaign claim** once the service procedure is completed.

We appreciate your continued partnership and commitment to our Hyundai customers.

Thank you for your patience and understanding.
