TBB In The Know

Saf-T-Liner C2 Headlamp Updates

Dear Dealer Network,

The following headlamp sales option changes are effective immediately for all new orders of our Saf-T-Liner C2 product, including the discontinuation of all halogen headlamp selections. This LED lamp change will also apply to all existing committed orders with a chassis planned start date of 1/2/2026 and later. New LED headlamp assemblies will provide an integrated LED turn signal.

- Impacted committed orders currently in our backlog, which are configured with a halogen headlamp selection, will be price protected for the update to LED headlamps
- There is no price impact when changing from a current LED headlamp option to the new, equivalent LED headlamp selection.
- All necessary headlamp changes will be processed by the TBB Sales Operations Team.
- See the TBB data book for pricing details.

For more information, or answers to your questions about this change, please contact Jason Austin.

Discontinued	Description	Replaced By	Description
