**TO: Jaguar Land Rover Authorized Retailer Aftersales Personnel**

Please find attached the following Jaguar Land Rover Aftersales publication.

- **Vehicle Quarantine Notice – D054 - Transmission Park Selector Not Illuminated**

**Concern:**

A concern has been identified on a number of vehicles where it is possible that moisture has entered the Gear Selector Module during the assembly process. Under certain conditions there is a risk that this moisture could result in a lack of Light Emitting Diode (LED) illumination of the selected gear adjacent to the selector lever, which would not conform to regulated requirements for automatic transmission control position indicator illumination.

**Affected Models and Model Years:**

25MY Range Rover and Range Rover Sport

25-26MY Range Rover Evoque and Discovery Sport

**Volume:** 263 USA 27 CAN

**Action:**

This is a vehicle quarantine notice, retailers/authorized repairers are required to quarantine all affected vehicles that are within your control and refrain from releasing the vehicles for vehicle sale until repair is available and can be performed.

A future service bulletin will be released to communicate the repair procedure.

Please review the attached bulletin which is also published on TOPIx. All affected VIN are being flagged on TOPIx.

Please review the attached VIN list of affected vehicles in your new vehicle inventory.

**PLEASE DO NOT REPLY TO THIS EMAIL.**
