EMISSIONS RECALL AB5S0/AB5R0 AVAILABILITY

MODELS:

- All 2018 – 2021 MY L-Series Conventional Trucks equipped with an Automatic Transmission (Manual Transmission trucks are excluded).
- All 2018 – 2020 MY COE Trucks, Diesel and Hybrid

BULLETIN No.: SB-25-003

ISSUE DATE: October 30, 2025

Beginning the week of November 3, 2025, both HinoNet and Dealer Connect will be updated to reflect the Emissions Recall for eligible vehicles. During this period, recall work instructions will be published on HinoNet, and an initial shipment of recall parts kits will be distributed to dealers based on UIO/AOR data.

A critical component of this recall is the ECU and DCU software update. It is essential that the correct software is installed in both the ECU and DCU to ensure proper completion of the recall. At this time, the recall software is expected to be available around November 17, 2025. Therefore, recall repairs should not be performed until the software is released.

Once the software becomes available, a follow-up Service Bulletin will be issued to dealers, including the relevant recall software part numbers.

In the meantime, please refer to the table on the next page to identify the appropriate recall parts kit P/Ns associated with each VIN assigned to the emissions recall.

Distribution: Dealer Principals, General Managers, Sales Managers, Service Managers, Warranty Managers, Parts Managers, Service Technicians, Service Advisors
