Purpose for Parts and Accessories Bulletin

This bulletin informs dealers that a recent software update to the Screamin' Eagle Pro Street Tuner application will require the use of a Personal Computer (PC) to complete a Bluetooth Communication Interface (BCI) firmware update.

Affected Part Numbers:

- 41001141- Screamin Eagle Pro Street Tuner
- 41001166A - Screamin Eagle Pro Street Tuner (California)

Software Version:

- PC - 25.001.8027 (recommended to use for BCI update)
- iOS - 25.001.7016 (not recommended for BCI update)
- Android - 25.001.6011 (not recommended for BCI update)

Markets Affected

United States, California, Canada, Mexico, Australia, New Zealand, Germany

Summary

NOTE

As of October 24, 2025 the Screamin Eagle Pro Street Tuner application service has been restored for Apple iOS and the app has returned to the App store.

DO NOT use Screamin' Eagle Pro Street Tuner mobile phone application (iOS 25.001.7016 or Android 25.001.6011) to update BCI firmware from (1.18.0.0) to (1.18.0.6) as updating with the mobile apps may result in the BCI becoming non-responsive.

- Use PC application (25.001.8027) to complete BCI firmware update as needed.
- Once the BCI firmware has been updated to (1.18.0.6), the BCI can be used with PC application (25.001.8027), iOS application (25.001.7016), and Android application (25.001.6011).

Questions

Contact Technical Service with any concerns regarding application. Direct all other questions to the Dealer Services Representative.

NOTE

Refer to Screamin' Eagle Pro Street Tuner User Manuals (iOS / Android) on how to verify BCI firmware version.
