

# Service Bulletin

Bulletin No.: PIC6537D

Date: November, 2025

## PRELIMINARY INFORMATION

**Subject: Diagnostic Tip - Knocking Noise / Vibration with A/C Compressor Running**

Brand:	Model:	Model Year:		VIN:		Engine:	Transmission:
		from	to	from	to		
Cadillac	LYRIQ	2023 - 2026		All	All	All	All
Cadillac	OPTIQ	2026		All	All	All	All

<b>Involved Region or Country</b>	North America
<b>Additional Options (RPO)</b>	RWL - CHASSIS DRIVE LINE-REAR WHEEL DRIVE (RWD)
<b>Condition</b>	A customer may comment of a Helicopter or Knocking type noise or vibration when the A/C compressor is running.
<b>Cause</b>	Under Investigation

### Correction

Verify the correct charge and that there is no debris in the oil.

Verify the upper mounts are not twisted per PIC6485.

Check the High Voltage Cable harness to the compressor for being too tight causing a side load on the compressor.

If harness is found to be tight, loosen the fir tree zip ties and adjust the harness as needed to allow slack in harness to compressor.

This noise usually presents itself between 1250 - 1650 Compressor RPM.

If no issues found with the mounts, harness, and no debris in the oil, Engineering is currently working on a design improvement.

This PI will be converted to a Bulletin when a resolution is available.

<b>Version</b>	5
<b>Modified</b>	01/12/2024 - Created on. 01/17/2024 - Modified Correction to inspect the HV harness to compressor. 01/27/2025 - Added 2025 model year. 05/16/2025 - Added RPO and update to correction sections. 11/04/2025 - Added 2026 OPTIQ and 2026 LYRIQ

GM bulletins are intended for use by professional technicians, NOT a "do-it-yourselfer". They are written to inform these technicians of conditions that may occur on some vehicles, or to provide information that could assist in the proper service of a vehicle. Properly trained technicians have the equipment, tools, safety instructions, and know-how to do a job properly and safely. If a condition is described, **DO NOT** assume that the bulletin applies to your vehicle, or that your vehicle will have that condition. See your GM dealer for information on whether your vehicle may benefit from the information.
