Note! If using a printed copy of this Technical Journal, first check for the latest online version.

**DESCRIPTION:**

\*Updated information under “Service” and structure weeks

The intention with this Technical Journal is to avoid unnecessary fault tracing or part replacements for known deviations.

Some features will not be introduced from the start of the EX90, but will be available via SW upgrade.

Please see under “SERVICE” for preliminary introduction plan.

SW = Software

POT = Power Operated Tailgate

DIM= Driver Information Module

PA = Pilot Assist

LKA = Lane Keeping Aid

ACC = Adaptive Cruise Control

HUD = Head Up Display

VC = Volvo Cars

OTA = Over The Air update

**CSC** Customer Symptom Codes

### SERVICE:

This Technical Journal describes the SW release with its intended content.

Please note that any of the below mentioned topics might be adjusted, moved or removed with a short notice.

### SW Release 1.2.15:

#### Improvement/fixes/intro:

- Seatbelt and occupant presence reminders
- Exterior lights
- POT opening trigger
- Rain sensor sensitivity memory
- Sensitivity for DIM and centre display day/night mode
- AC-charging in US/Can
- Alarm sensor unintended flashing

### SW Release 1.2.6:

#### Features:

- Wireless Apple Car Play
- Digital Key now available for more phone models
- Car locator in Volvo Cars App

#### Improvements:

- Automatically lock car when leaving
- Key card /Key fob connections
- Cleaning mode for the centre display
- Possibility to turn off the LKA (market dependent)
- Wireless phone charger

- Steering wheel and seat heating functions
- Bowers & Wilkins in-car app
- Initial front wiper stroke removed
- Operation range for forward vehicle detection
- Hands-off detection and lane change graphics for Pilot Assist
- Bluetooth and phone connection stability
- Sound from Infotainment system
- Rear Auto Brake message when driving in darkness
- General stability and performance of Climate and Interior light system

### Fixes for:

- Rear view mirror auto-dimming
- Unlock with the approach function
- Widgets for map or media in the centre display
- Map in the centre display
- The contextual bar in the centre display

### SW Release 1.2.15:

- Improved performance of the boot opening triggers
- The alarm sensor no longer flashes while you're driving
- Improvements of charging screen to unintentionally pop-up during parking
- The centre display no longer flickers when switching between day and night mode while driving
- Google security patch level has been increased to Feb 1st, 2025
- This update also contains some tweaks and fixes to:
  - Exterior lights, Automatic wiper sensitivity, AC charging seatbelt and occupant presence reminders

### SW Release 1.3.17:

- Abbey Road sound mode is introduced as a new sound mode (Only available for Bowers & Wilkins Sound level)
- HD Radio is introduced (US market only)
- Bug fix solves the issue where the connection of key tags and Digital Keys to profiles could disappear after the car was parked for a while. All keys connected to profiles shall now be kept until they are manually removed
- New functionality, Curve Speed Assist, CSA, to be introduced. Curve Speed Assist adapts the vehicle speed to curves, roundabouts and junctions/ramps. It is an extension of Adaptive Cruise Control. (All markets except China and Korea)
- Pre-conditioning timer settings will no longer reset overnight
- Welcome- and farewell light improvements. Rear light animations are now activated in more approach scenarios
- Adaptive high beam control is turning on High Beam with quicker response time after a meeting scenario
- Fixed the issue related to Fahrenheit temperature that was always bumping back to 62. (US market only)
- Smart charging is enabled, a convenient way to schedule charging based on chosen departure time
- Improvement for Unlock at approach functionality when opening in wet weather conditions

## Technical Journal 37159.10.0

---

- Improvements for NFC reader in the door handle. When you place your fingers under the door handle you will trigger a reset that will re-enable the NFC-reader (in the handle)
- Further stability improvements for AC charging. (US market only)
- Infotainment system improved with rear camera split view update
- QR code added in Center display for user to connect the Mobile App to the car, still supporting Volvo ID and password as backup
- ETA (Estimated Time of Arrival) information is added in DIM when Navi route is set and map view is active in DIM
- Bug fixes to enable possibility to change charging settings for a location via the mobile App
- Improved sound when phone is connected via blue tooth
- Improvements for better stability on Connectivity connection
- Additional info added in HUD (Head-Up Display): ACC/Pilot Assist status + set speed

### **\*SW Release 1.3.18:**

- Digital key system improvements
- Improvement in occupant presence reminders when leaving the car

### **\*Next SW Release planned towards 2025Q3**

### **Following features are currently not available for EX90:**

- Light in steering wheel buttons
- Folding outer mirrors when locking the car
