Subject	C125 #1 Emissions Recall - Campaign Update						

November 20, 2025

Re: **C125 #1 Emissions Recall – Campaign Update**

Dear Honda Dealer:

Honda launched an emissions recall on ALL 2019-2024 C125 motorcycles on October 31, 2025. A fuel system permeation test revealed that the fuel system does not meet regulatory standards and is not in compliance.

At American Honda, we understand and recognize how disruptive quality issues can be to our valued dealers and customers. We are committed to supporting you by taking steps to help mitigate the impact, including prepaid flooring credit for all affected C125 units in dealer inventory (new and unregistered).

Flooring credits will be issued to your December Balance Forward Account (BFA). For details, refer to the *Flooring Support* sales bulletin #25-0256 found on *iN* under **Sales > Sales Bulletins**

Thank you for your patience and partnership as we work to resolve these issues and get these critical models back on your showroom floors.

Sincerely,

American Honda Motor Co., Inc.
Powersports Division
