GMC	Yukon XL	2026		November 19, 2025	EOP	All	All

Involved Region or Country	North America
Condition	Note: This information only applies to vehicles build on or after the build dates listed in the model section. A customer may comment that one or both headlight DRL LED strips, example shown below, may intermittently flicker.
Cause	The cause of this condition may be the K219 Lighting Control Module.

7032454

Correction

DO NOT replace the headlamp assemblies for this condition.

After the concern is confirmed inspect the part number of the lighting control module in the vehicle. If the vehicle has one of the following p/n's: 13572175, 13572177, or 13572179, then replace the K219 Lighting Control Module with part number 13566314.

Parts Information

Description	Part Number	Qty
Lighting Control Module	13566314	1

Warranty Information

For vehicles repaired under the Bumper-to-Bumper coverage (Canada Base Warranty coverage), use the following labor operation. Reference the Applicable Warranties section of Investigate Vehicle History (IVH) for coverage information.

Labor Operation	Description	Labor Time
2081428*	Replaced Lighting Control Module	0.6 Hrs.
*This is a unique Labor Operation for Bulletin use only.		

Additional SI Keywords:

driver, flash, flashing, flickering, flashes, front, headlights, headlamp, headlamps, lamps, lamp, left, park, parking, passenger, right, running

Version	2
Modified	12/11/2025 Created on 12/15/2025 Updates to the Models, Condition and included additional SI keywords.

GM bulletins are intended for use by professional technicians, NOT a "do-it-yourselfer". They are written to inform these technicians of conditions that may occur on some vehicles, or to provide information that could assist in the proper service of a vehicle. Properly trained technicians have the equipment, tools, safety instructions, and know-how to do a job properly and safely. If a condition is described, **DO NOT** assume that the bulletin applies to your vehicle, or that your vehicle will have that condition. See your GM dealer for information on whether your vehicle may benefit from the information.
