

WSN3 Workshop Campaign – Replacing service cover on high-voltage battery E-box

WSN3 Workshop Campaign - Replacing service cover on high-voltage battery E-box

ID Number	WSN3
Model(s)	Macan (XAB)
Model Year(s)	2024 - 2026
Number of VINs Affected	4
VIN List	Attached
Issue Overview	Due to an error in the Workshop Manual, there is a possibility that the screw connection of the service cover on the high-voltage battery E-box did not meet specifications during repairs in the Porsche Centre on the affected vehicles. Moisture seeping in at the service cover of the high-voltage battery E-box cannot be ruled out over the service life of the vehicle. In order to prevent this from happening, the service covers on the high-voltage battery E-box including screws must be replaced on the affected vehicles.
What Porsche Centers Should Do	During the next workshop visit , please arrange for this action to be carried out on the affected vehicles (At the time of this posting12/16/2025, solution is immediately available)
Part Status	Status 1 - Order as needed
TI	WSN3

Warranty processing
