GMC	Yukon	2021 - 2026		All	All	All	All
GMC	Yukon XL	2021 - 2026		All	All	All	All

Involved Region or Country	North America
Condition	Some customers may comment that they notice the blower motor slows down when there is light powdered snow on the hood/cowl areas.
Cause	This may be caused by the snow blocking air flow through the air inlet to the blower motor, causing the blower motor's internal logic to slow blower speed in response to the change in air flow.

Correction

No repairs should be made as this is normal operation. Recommend clearing the snow prior to driving vehicle.

Version	2
Modified	02/21/2025 - Created on. 01/15/2026 – Updated to add the 2026 Model Year
