Clattering Noise from Hood Area.mp4	Clattering Noise from Hood Area

Cause

Missing helical spring shim (blue part as shown in attached picture "Helical Spring Shim").

Remedy

Check whether the blue helical spring shim is installed.

- If NOT present: Install the spring shim. Replacement part is black.
- If present: Replace the blue shim with the aftersales part black shim.

If noise is still not remedied after replacing shims, provide sound/video file to the Body, Chassis and Entertainment in-box.
