<b>Involved Region or Country</b>	North America
<b>Condition</b>	Customer may notice that when passing a sign that reports 110 km/h, the cluster will register 100 km/h.
<b>Cause</b>	Engineering is investigating the issue

### Correction

Engineering is currently investigating.

Please return the vehicle to the customer and let them know it is safe to drive while engineering is investigating the issue.

The PI will be updated or replaced with TSB once a determination has been made.

<b>Version</b>	2
<b>Modified</b>	01/28/2026 - Created. 01/29/2026 - Updated model years.

GM bulletins are intended for use by professional technicians, NOT a "do-it-yourselfer". They are written to inform these technicians of conditions that may occur on some vehicles, or to provide information that could assist in the proper service of a vehicle. Properly trained technicians have the equipment, tools, safety instructions, and know-how to do a job properly and safely. If a condition is described, **DO NOT** assume that the bulletin applies to your vehicle, or that your vehicle will have that condition. See your GM dealer for information on whether your vehicle may benefit from the information.
