

2023 MY F-150 Lightning

Powertrain Control Module - PCM

PT-25.8.5

Software Update - Charge Port Functionality & Cold Weather Performance

Powertrain Control Module

"Charge port locking applies to DC Fast Charging only. Level 1 and Level 2 AC chargers can be unplugged without pressing the unlock button.

PT-25.8.5

"This software update contains the following key changes:

- Your vehicle's charge port now locks when connected to a DC fast charger. To unlock the charge port, ensure your key fob (if equipped with keyless entry) or Phone as a Key (if equipped) is located near the charge port, or unlock all vehicle doors. Then press the charge port unlock button and unplug.
- We've updated your Primary and Secondary Drive Units to prevent a potential warning indicator light in cold temperatures."
