Software Update 11 - Center Touch Screen

Accessory Protocol Interface Module

As a reminder, ensure you have a recurring Software Update schedule set in order to receive important updates for your vehicle. Visit the Software Update settings in-vehicle or on your mobile app.

1

PHX-25.1.2.5.5

"This software update contains the following key changes to your center touch screen:

- The playback controls on your Media card on your screen should now function correctly when playing third-party audio apps.
- We've fixed an issue where your Tire Pressure display might show dashes after starting your vehicle. It should now consistently show your tire pressure.

If you did not previously receive PHX-25.1.2.4, this update also includes the following:

- Share instant voice feedback directly from your vehicle to help us advance the vehicle experience. To begin, tap ""Record Feedback"" on the App screen. For safety or service concerns, please contact your retailer.
- The new Arcade Sports Collection app offers retro-themed games like Shuffleboard and Button Soccer with more coming soon! Compete with your friends and family in your vehicle, even if they're in the backseat, by using your phone as a controller. Download Arcade Sports Collection from the Play Store, located on the App screen.
- The new Quick Tips App helps you easily discover your vehicle's digital features. This dedicated learning hub provides up-to-date demos and tutorials. Download Quick Tips from the Play Store, located on the App screen.
- Managing your radio presets is now simpler and more intuitive, making it easier to add or remove your favorite stations.
- We've improved messaging and information related to your vehicle's connected features.
- We've made improvements to the look and feel of the climate controls and other general areas of the user interface."
