Compliance Recall 25C33 - Global Window Close

Body Control Module

As a reminder, ensure you have a recurring Software Update schedule set in order to receive important updates for your vehicle. Visit the Software Update settings in-vehicle or on your mobile app.

1

BCM-25.6.0

"This software update contains the following key changes:

- We have updated your vehicle's Body Control Module to remove the Global Window Close feature, reducing the potential for higher than expected window closing force. The Global Window Close feature allows you to close all the windows when the vehicle is in ignition off using the key fob or your Lincoln App. This completes Compliance Recall 25C33. No further action is required."
