CUSTOMER INFORMATION: The information in this bulletin is intended for use only by skilled technicians who have the proper tools, equipment, and training to correctly and safely maintain your vehicle. These procedures should not be attempted by “do-it-yourselfers,” and you should not assume this bulletin applies to your vehicle, or that your vehicle has the condition described. To determine whether this information applies, contact an authorized Honda automobile dealer.

FAQ

Do I need to connect to Wi-Fi?

Yes, it is necessary to connect the vehicle to a Wi-Fi network to perform over the air updates. To connect to a Wi-Fi network, follow these steps.

1. Go to the HOME screen on the audio display screen.
2. Select **General Settings**.
3. Select **Connections**.
4. Select **Wi-Fi**.
5. Select **Change Mode**.
6. Select **Network**.

NOTE: When you change the mode from Smartphone Connection to Network, a pop-up appears; select **Confirm**.

7. Select the desired Wi-Fi network.

NOTE: To download updates automatically, check to *Use this network to automatically download system updates*.

8. Select **Connect**.

NOTE: Connect will appear after a password is entered if required.

9. Press the HOME button to return to the home screen.

10. Check for OTA System Updates.

How do I check for an OTA System Update?

Follow these general steps to check for an Over the Air (OTA) System Update. For detailed instructions, please consult the owner's manual.

1. Go to the HOME screen on the vehicle display audio screen
2. Select the **System Updates** application
3. Select **Check** for updates.
4. Follow the on-screen prompts to complete checking for an update or proceed with any available updates.

Will I lose any functions during the update?

Some functions will not work during the update process. It is recommended that you do all updates while parked in a safe location.

Can the dealer perform the OTA update?

Yes, the dealer can complete the OTA update. Consult the Owner's Manual for more information.
