Service Action: Frontal Light Electronics	<p>Residues from the production process may be present on the Frontal Light Electronics circuit board. This could result in the failure of a lighting function (e.g. daytime driving lights, low-beam headlight, turn indicators) on the affected side in the front area. In the event of a fault, you will be informed by a Check Control message. The front light module will be replaced.</p> <p>Contact authorized BMW center at your earliest convenience to get your vehicle repaired for FREE.
