

# WSV1 Workshop Campaign – Re-program gateway control unit (battery sensor)

---

## WSV1 Workshop Campaign - Re-program gateway control unit (battery sensor)

ID Number	WSV1
Model(s)	911 (992)
Model Year(s)	2025 - 2026
Number of Affected Vehicles	2,480
VIN List	Attached below
Issue Description	<p>An incorrect service life limit was programmed on the affected 12-Volt vehicle electrical system battery.</p> <p>This can lead to an early switch-off of the comfort consumers and to an unauthorized message "Battery low - Service necessary" in the instrument cluster.</p> <p>To prevent this from happening, the gateway control unit (battery sensor) must be re-programmed using optimized software.</p>
What should Porsche Centers do?	<p>Please arrange for the measure to be carried out on affected vehicles as soon as possible.</p> <p><b>As of the time of this posting (2/19/26) the remedy is immediately available.</b></p>
Parts Status	Status 0 - No parts needed
TI	<a href="#">WSV1</a>

## Required software

PIWIS Tester 4 test software version	43.800.024 (or higher)
--------------------------------------	------------------------
