Re: *WRF-25 Solterra Power Distribution Box Replacement: Parts Ordering*

The purpose of this is to communicate updates regarding ordering parts for the WRF-25 Solterra Power Distribution Box Replacement Service Campaign.

While parts are available to complete the service campaign repair, the part needed to complete this service campaign, part number 0400528242, is on hold. In an effort to expedite part release, when submitting an order for the power distribution box, please include the last eight characters of the VIN in the PO field (example SA234552). Failure to include this information when placing an order will result in the order being cancelled.
