91 Various messages in instrument cluster about main beam assist after replacing onboard supply control unit

Release date: Feb 4, 2026

Condition

Model(s)	Year(s)	VIN Range	Vehicle Specific Equipment
A5, S5 (FU), Q5, Q5 Sportback, SQ5, SQ5 Sportback (GU)	2025 – 2026	All	Not applicable
A6 Sportback e-tron, S6 Sportback e-tron, Q6 e-tron, Q6 Sportback e-tron, SQ6 e-tron, and SQ6 Sportback e-tron	2025		
A6 (FN)	2026		

After the onboard supply control unit J519 (HCP4, diagnostic address 0009) has been replaced and set up, various DTC entries regarding basic setting of the headlights are logged in diagnostic address 0009.

These DTC entries can be deleted.

After terminal 15 has been switched off and on again, faults regarding the main beam assist and/or Audi adaptive light are displayed in the instrument cluster BUT the DTC entries are not logged again in diagnostic address 0009.

Technical Background

Basic setting of the headlights is not triggered when the onboard supply control unit (HCP4) is set up.

Production Solution

Not applicable.

Service

Perform the **“Basic setting of headlamps”** program via Guided Functions/Guided Fault Finding after replacing the onboard supply control unit (HCP4).

Warranty

This TSB is informational only and not applicable to any Audi Warranty.

Additional Information

All part and service references provided in this TSB (**2080876**) are subject to change and/or removal. Always check with your Parts Department and/or ETKA for the latest information and parts bulletins. Please check the Repair Manual for fasteners, bolts, nuts, and screws that require replacement during the repair.
