PAB005 Saf-T-Liner HDX2 Rear Heater Content Changes

Recent updates to the Saf-T-Liner HDX2 rear heater sales option content now enable a simpler ordering process in RACE. The rear heater ratings and locations will continue to be optional. The plumbing, clamp and connection sales options (groups H6052*, H6053*, H6058* and H6047*) are no longer required in the ordering process for your rear heater selections. The TBB Sales Operations Team will be making these updates on existing Saf-T-Liner HDX2 orders scheduled to start April 6, 2026, or later. These changes only apply to the Saf-T-Liner HDX2 product.

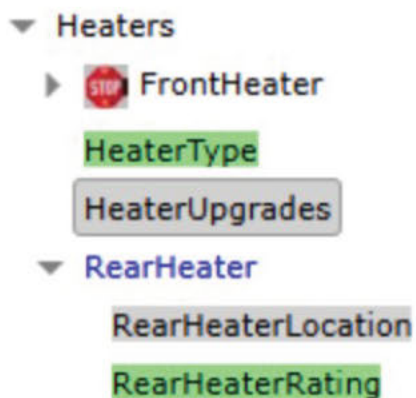

Current ordering structure in RACE:

- multiple heaters are ordered by cloning the REAR HEATER node

Future ordering structure in RACE:

- multiple heaters will still be ordered by cloning the REAR HEATER node
