

# DAIMLER TRUCK

## North America

February 2026

**Subject: Titan-X Radiator Standard Warranty Extension**

Dear Customer:

Our records indicate that you are the owner of certain Freightliner and/or Western Star models that may exhibit an issue based upon a recent quality spill at our supplier, and Daimler Truck North America (DTNA) is pleased to share the following information with you.

This information applies to specific Freightliner and Western Star models manufactured from November 2024, through June 2025. If you experience radiator fin leaks that were not introduced by an external event, the base 1 year warranty period has been extended by an additional 1 year 100,000 miles/161,000 kilometers for a total of 2 years 200,000 miles/322,000 kilometers from the in-service date of the affected vehicles. The standard warranty coverage displayed on the vehicle Coverage-Info screen will be **TITAN-X RADIATOR STANDARD WARRANTY EXTENSION**. This issue presents as a slow coolant leak and it may be visible during pre-trip inspection. DTNA Online Warranty Link (OWL) system has been updated to reflect this additional base coverage on affected vehicles.

We hope you find this information helpful.

Thank you,

Warranty Department  
Daimler Truck North America
