Background

American Honda Motor Co., Inc. (AHM) is searching for certain 2021 CR-V FHEVs with a customer complaint of an oil leak coming from the passenger side transmission/differential oil seal. The leak may also be found during normal service or an oil change. To better understand the cause of this condition, AHM would like to collect specific parts from the vehicle prior to you attempting a repair of any kind.

Qualifiers

AHM is interested ONLY if the vehicle meets the following requirements:

1. Must have a manufactured date on the driver's door jamb AFTER 3/2021 and BEFORE 8/2021.
2. Must have a visible oil leak from the passenger side transmission to differential oil seal (P/N 91206-RCT-003)
3. Must be able to provide a photo of the leak. (Click [HERE](#) for example photo).
4. Previous oil seal replacement ok.
5. No collisions.
6. Removal of the half shaft ok, no other disassembly or repair attempts during this visit.

Action Required

If a vehicle matching the qualifiers above comes into your dealership, please e-mail Technical Information & Support (TIS) at tis@ahm.honda.com, or call us at 800-880-1072 (Monday-Friday, 6am-5pm PST). TIS will contact you to record certain vehicle information and provide you with further instructions.

Please be sure to include the following information in your e-mail.

E-mail Title:

1. Model Year (e.g. 2026)
2. Model Name (e.g. Accord)

As a gesture of appreciation to dealer technicians who identify and report a vehicle that meets the qualifiers, was accepted as a candidate and is the subject of a successful Dealer Visit/Parts Collection/Info Collection, AHM will provide the referring technician with a **VISA gift card**. Technical Information & Support (TIS) will provide additional information if this situation applies.

Thank you.
