

## **SSM 54665 2026 F-150/Bronco/Ranger/Mustang Mach-E - Blank Center Display Screen When Deactivating Transport Mode**

Some 2026 F-150/Bronco/Ranger/Mustang Mach-E vehicles may exhibit a blank center display screen after deactivating transport mode. To correct the condition, cycle the ignition from On/Ready to Off. Open, close and lock the door and let the vehicle sit for a minimum of 5 minutes. Reprogramming or replacement of any modules will not correct the condition. If the concern continues, refer to Workshop Manual (WSM), Section 415-00 Information and Entertainment System for normal diagnostics.
