

NEW FIRMWARE

MBB REV 44 BMU REV 19

Zero Motorcycles released new firmware for all motorcycles operating on our Cypher III platform. This includes the following models and years:

MY20+ SR/F

MY20+ SR/S

MY22+ SR

MY23+ DSR/X

MY24+ S, DS, and DSR

Please make sure to update all applicable motorcycles in your dealership inventory and offer the update to all customers that come into your store for service.

Zero Motorcycles Firmware Release Notes

February 2, 2026

MY20+ Cypher-III MBB Rev 44 BMU Rev 19

New: Power management of main power pack optimized for transport and seasonal storage.

Fix: Transitioning logic to limp state is now more predictable.

Fix: Refined BMU voltage measurements to prevent false fault triggering.

Fix: Odometer format refined to follow international diagnostic standards.

Fix: Refined BMM initialization of critical settings during startup.
