Reason for this campaign

It has been determined that the wiring for the generator switch and hour meter on the monitor panel of specific models may be wired incorrectly.

What we will do

Keystone has notified our dealers regarding this situation. The remedy is to move the monitor panel wiring for the generator switch and hour meter to the correct locations. The service required for this corrective action will be provided at no charge to you.

At your earliest convenience, please make an appointment to have your RV serviced by your dealership. The labor time to perform this campaign is approximately ½ hour. Please ask your dealer if you wish to know how much additional time will be needed to schedule and process your RV for this repair.

If you have questions

Your dealer is best equipped to obtain parts and provide service to ensure your RV is corrected as promptly as possible. If your dealer is unable to assist or if you take your RV to your dealer on the agreed service date, and the dealer does not remedy the condition within a reasonable amount of time, or without charge to you, please contact Keystone Customer Service by calling 1-866-425-4369.
