Accessory Protocol Interface Module - PHX

PHX-25.1.2.5.5

Compliance Recall 25C33 - Global Window Close

Accessory Protocol Interface Module

As a reminder, ensure you have a recurring Software Update schedule set in order to receive important updates for your vehicle. Visit the Software Update settings in-vehicle or on your mobile app.

1

PHX-25.1.2.5.5

"This software update contains the following key changes:

- We have updated your center touch screen to remove the Global Window Close feature toggle, reducing the potential for higher than expected window closing force. The Global Window Close feature allows you to close all the windows when the vehicle is in ignition off using the key fob or your vehicle's mobile app. A future update will fully remove this feature from your vehicle as part of Compliance Recall 25C33."
