

Remote Lock/Unlock – IP Wake-up Improvements for Fifth Generation Freightliner Cascadia

Communication Type: News

Date: 3/2/2026

Fifth Generation Freightliner Cascadia customers who subscribe to Detroit Connect Remote Lock/Unlock now have improved functionality!

Recent updates significantly decrease Remote Lock/Unlock response times for the Fifth Generation Cascadia.

- The CTP will now wake up on demand and is able to lock or unlock the vehicle in minutes if all other operation conditions are met.
 - Battery cutoff switch is in the ON position
 - Vehicle is not parked for more than three days
 - Cellular network is present
