

**Zero Radius Software Update to Support  
Neutral At Stop Enhancement**

Date: March 18, 2026  
Bulletin Name: ZR-IB-021  
Model: Zero Radius Side Loader 48  
Model Year: 2015 to Present  
Units Affected: ZR 3.0

**Purpose:**

The McNeilus Body Control software on Zero Radius (ZR) side loaders has been updated to support the Neutral at Stop (NAS) enhancement offered by some chassis OEMs.

The McNeilus Body Control software update will communicate to the chassis OEM that the McNeilus body is in Collection Mode.

Contact and schedule software update with your McNeilus service dealer network.

The minimum McNeilus Body Control Software version required for Neutral at Stop support is listed below, along with the applicable display software version.

**BCM**
