SYNC-26.2.4.10

"This software update contains the following key changes:

- Video Streaming is now available, expanding the in-vehicle entertainment options.

While parked, seamlessly watch news and entertainment. You can also make memories on your next road trip or tailgating event with the Stingray Karaoke app.

While parked, the lyrics will be displayed on the center touch screen. As you drive, passengers can scan the QR Code from the center touch screen and sing along by viewing the lyrics on their phone. Both apps are available in the Apps drawer (if applicable)."
