REFRIGERATOR SECUREMENT INSTRUCTIONS

1. Remove the six screws (three on each side) from within the refrigerator as shown in figure 1.
 - a. Save the six screws for reinstalment

Fig. 1

2. Pull the refrigerator out so you can get behind to install the steel brace as shown in figure 2.
3. Secure the steel brace with seven screws. Two 1" screws at the bottom into the floor and two 1" screws into the top of the cabinet, and then three 2" screws in the wood frame near the top. (Figures 3-5)

Fig. 3

Fig. 4

Fig. 5

Fig. 2

4. Push the refrigerator back into the cabinet space. Resecure the refrigerator with the six screws and make sure the refrigerator is even with the face of the cabinet.

Jayco's sole obligation under our limited warranty is to repair or replace defective materials and/or workmanship deemed our responsibility as determined by Jayco in our sole discretion. Jayco reserves the right to use new and/or remanufactured parts or materials of similar quality to complete any work, and to make parts and/or design changes as appropriate without notice to anyone. Jayco designs and/or materials changes are done without obligation to incorporate such changes in previously manufactured product. Jayco makes every reasonable effort to ensure field remedies will not adversely affect performance and/or safety of the unit. This field remedy is not intended to extend to future performance of this RV, or any of its materials, components or parts beyond the standard warranty period. The RV owner's obligation to notify Jayco, or one of its independent, authorized dealers, of a claimed defect does not modify any obligation placed on the RV owner to contact Jayco directly when attempting to pursue remedies under state or federal law.
