

Infotainment System Displays Previously Viewed SMS Messages

APPLIES TO

Year	Model	Trim Level
2025–26	MDX	ALL
2026	ADX	ALL

SYMPTOM

The vehicle's infotainment system displays previously viewed SMS messages upon each ignition cycle, when the customer's Android phone is connected via Bluetooth.

NOTE: This issue does not occur when using Android Auto.

TEMPORARY SOLUTION

A permanent solution is being developed. Follow the instructions below as a temporary solution:

1. Navigate to **General Settings > Advanced Settings > Apps > View All Apps**.
2. Select **SMS** from the list of apps.
3. Select **Permissions**.
4. Select **Don't Allow**.
5. Select **Don't Allow Anyway**.
