

SSM 54757 2024-2026 Nautilus - Seat Track Motor Service Part Now Available

Some 2024-2026 Nautilus vehicles may require replacement of the front seat track motor for various reasons. If Workshop Manual (WSM), Section 501-10A > Front Seats > PPT A leads to front seat track motor replacement, a lower level service part is now available - PU5Z-14547-A (driver side) and PU5Z-14547-B (passenger side). If only the front seat track motor requires replacement, it is not necessary to replace the front seat cushion structure assembly.
