## ATTENTION: ALL DEALER PRINCIPALS

Kia is extending the New Vehicle Limited Warranty coverage to all owners for certain repairs related to an engine oil leak from the oil filter housing gasket in certain 2020-2025 MY Telluride vehicles manufactured from January 9, 2019 through June 12, 2025, from 5 years / 60,000 miles to 15 years / 180,000 miles, whichever comes first, starting from the date the vehicle was first put into service. This warranty extension is to address the oil filter housing gasket leaking condition.

If, at any time during the extended warranty coverage, the customer experiences an engine oil leak from the engine area and/or if the Engine Oil Pressure Warning light remains illuminated after the engine is turned ON, Kia authorizes its dealers to diagnose the cause free of charge at no cost to the customer.

If, at any time within the extended warranty period, dealers inspect and confirm that engine oil is leaking from the oil filter housing gasket, Kia authorizes its dealers to replace the oil filter housing gasket with a new one free of charge at no cost to customers under this warranty extension.

The Technical Service Bulletin (TSB) that provides vehicle repair procedures will be posted on the Kia Global Information System (KGIS) at [www.kiatechinfo.com](http://www.kiatechinfo.com), and the Warranty Bulletin describing this warranty extension will be posted on [dealer.kia.com](http://dealer.kia.com) on or around **April 29, 2026**.

**NOTE: Until the TSB for this warranty extension becomes available, dealers are to perform the diagnosis and repair as necessary on any affected vehicles under Kia's factory warranties. If a subject vehicle falls outside of its warranty (either by time or mileage), dealers are to perform the diagnosis and repair under goodwill to ensure that the diagnosis and repair of the symptoms covered under this warranty extension program are free of charge to the customer.**
