Customer states:

Digital Key activation cannot be activated in the MMI.

Workshop findings:

The customer statement can be reproduced.

Technical Background

1. The customer's smartphone is not compatible.
2. Mobile data is not activated in the vehicle (privacy mode activated).
3. The vehicle is offline.
4. The dealership has not verified the key user of the vehicle.
5. A communication fault in the backend means that the email with the personal activation code was not sent.
6. Maintenance in the backend.
7. Software issue in the onboard supply control unit J519.

8. Nomination of key user/vehicle preparation was not completed.

Production Solution

Not applicable.

Service

2. Please check whether mobile data are activated in the vehicle. Activate them if they are deactivated.

3. Please check that the vehicle is online. The globe symbol should be visible on the MMI. A high reception strength is also helpful.

4. The key user must be verified by a dealership.

5. To have the email sent again, please enter a random incorrect code 7 times.

6. Please try again the next day.

7. Reset Terminal 30 by disconnecting the 12V electrical system for at least 10 minutes.

8. Re-do key user activation.

Please delete the key user from the vehicle and delete the vehicle from the myAudi app.

Then set the key user again and confirm in the vehicle.
