**Important Alert: Dangerous Counterfeit Airbag Inflators (DTN)**

**Posted Date:** 04/09/2026 | **Dept:** All Departments

[Hyundai Dealer Communication - IMPORTANT ALERT - Dangerous Counterfeit Airbag Inflators \(DTN\) - 04.09.26.pdf](#)

**Subject: Important Alert: Dangerous Counterfeit Airbag Inflators (DTN)**

**Date: April 9, 2026**

The National Highway Traffic Safety Administration (NHTSA) has issued an urgent safety advisory regarding dangerous, counterfeit driver-side airbag inflators manufactured by Jilin Province Detiannuo Automobile Safety System Co., Ltd. (DTN), that have been identified in U.S. vehicles following prior crashes, theft, or non-certified airbag replacements. These inflators are not approved for use, may rupture during deployment, and have caused serious injuries and fatalities. Please see attached announcement, provided by NHTSA, for more details.

**Dealer Action Required**

If a customer vehicle shows signs of prior airbag deployment, salvage or rebuild history, theft, or repairs performed outside certified channels, advise the vehicle owner to have an inspection by your dealership. If a suspected DTN inflator is identified, the vehicle should not be driven until replaced with a genuine part, and the customer should report the findings to NHTSA per guidance. Do not encourage vehicle owner self-inspection. Customer safety and proper escalation are critical. Please see attached for more details.
