

## **SSM 54808 2023-2026 Escape, 2025-2026 Maverick - Hybrid - White Or Gray Engine Icon On The Left Side Of The IPC Display**

The instrument panel cluster (IPC) in 2023-2026 Escape and 2025-2026 Maverick hybrid vehicles has a power gauge section on the left side of the display. This power gauge section has a white or gray engine icon that is specifically used to indicate when the vehicle is operating in a specific hybrid mode. The white or gray engine icons are a normal function of the vehicles hybrid display and do not indicate that there is a malfunction and no service actions are necessary to address it. The Owner's Manual and Workshop Manual, Section 413-01 > Description and Operation are expected to be updated by the end of Q2 2026.
