

STAR ONLINE PUBLICATION

Case Number: S2609000007

Release Date: May 2026

Symptom/Vehicle Issue: Coolant Leak, Low Coolant Level/Loss of Coolant from Overflow Bottle

Models Affected: 2026 Jeep Grand Cherokee (WL)

Customer Complaint/Technician Observation: The customer's complaint may include a coolant leak under the vehicle. There also may be complaints of engine overheating. A MIL-on condition with accompanying Diagnostic Trouble Codes (DTCs) relating to cooling system operation may also be present.

Discussion: If any of the conditions described above are identified, published diagnostic routines for coolant leakage and/or overheating should be followed, including the use of cooling system leak detection dye as required. Issues regarding block porosity causing external loss of coolant from the engine are under engineering investigation at this time. Additional information will be provided when investigations have concluded.

This document does not authorize warranty repairs. This communication documents a record of past experiences. STAR Online does not provide any conclusions about what is wrong with the vehicle. Rather, it captures all previous cases known that appear to be similar or related to the vehicle symptom / condition. You are the expert, and you are responsible for deciding on the appropriate course of action.
