Correct Label

3. Is the label correct (595g (1.312lb.)) [Fig. 1](#), [Fig. 2](#)?
 - YES>>> This bulletin is complete. Use Inspect LOP (23-01-18-90) to close this active RSU.
 - NO>>> Replace label:
 - Apply a length of masking tape on the body, parallel to the top of the label.
 - Using a heat gun or lamp, heat the label to a temperature BELOW 52° C (120° F).
 - Use a trim stick or equivalent to remove the label from the body.
 - Thoroughly clean all residue from the label area of the body.
 - Wipe the attachment area with a clean, lint-free cloth moistened with a 50% solution of water and alcohol, wipe dry the area immediately with a dry, lint-free cloth.
 - Remove the protective covering from the backside of the label.

NOTE: If ambient temperatures are below 21° C (70° F), warm the body area using a heat gun or lamp to ensure proper adhesion.

 - Using the previously installed masking tape as a guide, install the new label by pressing firmly to ensure proper adhesion.
4. Close the hood.

POLICY:

Reimbursable within the provisions of the warranty.
