

SSM 54874 2024-2026 F-150 - Incorrect Fuel Gauge Indication - WSM Update

Some 2024-2026 F-150 vehicles may exhibit an incorrect fuel gauge indication when distance to empty (DTE) is below 50 miles. Workshop Manual (WSM), Sections 413-01 > Description and Operation > Instrument Panel Cluster (IPC) - System Operation and Component Description along with 413-01 > Diagnosis and Testing > Pinpoint Test D have been updated for this concern.
