Software Update 12 - Center Touchscreen

Accessory Protocol Interface Module

As a reminder, ensure you have a recurring Software Update schedule set in order to receive important updates for your vehicle. Visit the Software Update settings in-vehicle or on your mobile app.

1

SYNC-26.2.8.3

"This software update contains the following key changes:

- Video Streaming and Stingray Karaoke! Enjoy videos or sing along to on-screen lyrics while parked. When driving, passengers can scan a QR code to follow karaoke lyrics on their mobile devices. Check these new apps out in your Apps drawer.
- In line with our commitment to transparency, we've updated your privacy settings to include more choices for certain uses of connected vehicle data, like product improvement. You can now easily manage these preferences under the Connectivity settings menu on your touchscreen.
- We've enhanced your towing experience by fixing a few bugs related to on-screen towing menus.
- We've improved the reliability of Apple CarPlay and Android Auto to deliver more consistent launches and better overall integration with SYNC."
