

THRUXTON 400 & TRACKER 400 – PDI SOFTWARE DOWNLOADS

Triumph Diagnostic Tool (TDT) version 2026-05.1 includes support for the new Thruxton 400 and Tracker 400 models. Earlier versions of TDT **do not** support these new models.

During PDI, technicians must ensure that the TDT Smart Scan is used to ensure that all Electronic Control Module (ECM) software and calibrations are up to date. This includes the engine ECM, instruments, ABS modulator and immobilizer. Unlocking of new motorcycles **will not be possible** if any ECMs are not up to date.

If you have any additional questions, please contact Triumph Customer Support at (888) 284-6288.
