

Technical Service Bulletin

GROUP GENERAL INFORMATION	NUMBER 26-GI-002H
DATE MAY 2026	MODEL(S) SEE BELOW

SUBJECT: 2026 1ST NAVIGATION MAP AND SOFTWARE UPDATE

This TSB supersedes 26-BE-008H to add new items to the Key Improvements and Additional Improvements tables and update the Applicable Model and Parts Information sections.

Description: This bulletin provides information related to the navigation and head unit software changes introduced in the 2026 1st Navigation Map and Software Update. The changes may vary depending on vehicle type, model, and navigation system. Refer to the 2026 1st Navigation Map and Software Update Key Improvements and Additional Improvements tables in this TSB for a list of specific changes. The software can be downloaded via Navigation Updater (NAU) and updated by USB.

The NAU website is <https://update.hyundai.com/US/EN/home>.

For certain models equipped with a relevant Bluelink[®] package, the software may be downloaded and applied via Over-The-Air (OTA) update.

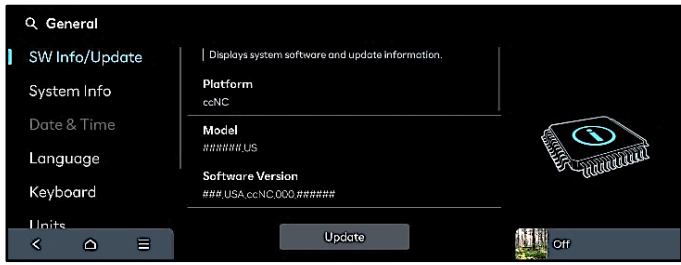

Applicable Vehicles:

Model Year	Model	Equipped With
2020 – 2026	All	Standard Gen5 Wide Navigation
2024 – 2026		ccNC Navigation

i Information

- This update provides map data as well as software that may add new features or remove others, which may change the appearance of the user interface or the way it is used. After installation, it is **NOT** possible to revert to the previous software version.
- Certain new features, such as Connected Routing and Weather Data, require an active Bluelink subscription to access.
- If any issues are experienced while using the NAU software, or **before** or **after** installation, please contact Hyundai Customer Care.
- If updating by NAU download and USB flash drive, please use a 64 GB (or larger) USB flash drive and format it as exFAT **before** using the NAU software.
- During the vehicle software installation, the vehicle must be running to keep the battery charged.
 - Do **NOT** change to **ACC** mode.
 - Do **NOT** turn **OFF** the Start button or ignition switch.
 - Do **NOT** disconnect the USB flash drive during the upgrade procedure.
- Disconnecting the USB flash drive during the download or update process can lead to corrupt files and a map update failure.

Parts Information:
