Temporary Solar Battery Maintainer Installation Guide

Subject

Temporary Solar Battery Maintainer Installation Guide

Whats New Abstract

An installation guide is now available for temporary solar battery maintainers used on vehicles in dealer inventory. Using solar battery maintainers according to the attached guide can reduce instances of dead or undercharged batteries in stock vehicles at dealerships. Use of solar maintainers is considered a best practice for battery maintenance.

Condition

This applies to any vehicle in dealer inventory using a temporary solar battery maintainer. Dealers should follow the attached installation guide when installing a solar battery maintainer. Solar battery maintainers

can reduce the instances of dead batteries on stock trucks. Use of solar maintainers is considered a best practice for battery maintenance.

Chassis Affected

Vehicles in dealer inventory or storage while waiting for final delivery.

Action

Informational

Refer to the attached document for guidelines on installation of temporary solar battery maintainers.

Parts

A solar battery maintainer kit is available from PACCAR Parts.

Quantity	Part Number	Description
1	PP807297	KIT-SOLAR PANEL, 35W, W/SUCTION CUPS

Procedure

WARNING!

Repair or maintenance procedures may pose a safety risk in limited circumstances. You must read all procedure steps before performing any work and follow all dealership safety procedures or precautions. Failure to comply may result in death, personal injury, equipment damage, or property damage.
