

Service Bulletin

Bulletin No.: PIC6655

Date: July, 2026

PRELIMINARY INFORMATION

Subject: Pinch Point Protection Inoperative - Front Windows

Brand:	Model:	Model Year:		VIN:		Engine:	Transmission:
		from	to	from	to		
Cadillac	OPTIQ	2025 - 2027		All	All	All	All

Involved Region or Country	North America
Condition	Customers may comment that the pinch protection in the front windows is inoperative when using the window switch express up feature, remote key, or app.
Cause	Software Anomaly

Correction

Engineering is currently investigating.

In the meantime, please continue to drive your vehicle with the understanding that pinch protection for the front windows is not sensing under certain conditions.

The PI will be updated or replaced with TSB once a determination has been made.
